The world of  
climate change  
law at your  
fingertips

Global Climate  
Change Law Guide

Printed on 100% recycled paper.

Need to keep up  
with global climate  
change law and its  
implications?

Looking for a  
reliable resource?

Have the world of climate change law at your fingertips with the **Global Climate Change Law Guide**. Simply pick a country and quickly apprise yourself of its carbon trading and greenhouse gas laws and regulations, their legal and tax implications and their relationship to existing laws.

The Guide covers climate change law in key carbon jurisdictions across the world, including Europe, North America, Latin America and Asia Pacific. It will become an essential tool for anyone involved in trading in carbon products, managing climate change-related risks and the implementation and management of climate change programs.

Benefit from having international climate change law at your fingertips, **saving you time and money**.

**Accurate. Authoritative. Relevant.**

Experience a unique online service that gives you access to the latest developments in **climate change law in key carbon jurisdictions** throughout the world – all in one place.

The **Global Climate Change Law Guide** is a world first. Providing explanation of climate change law from around the world, it includes:

- regional and national emissions trading mechanisms, including rules of operation for regional, national and key sub-national schemes;
- implementation of the Clean Development Mechanism and Joint Implementation frameworks;
- greenhouse gas reporting requirements;
- energy efficiency (targets, reporting requirements, mandatory building standards);
- renewable and clean energy schemes;
- plain English commentary and links to key source material and documentation;
- regular updates for each country so that you always have the latest information at hand;
- news alert services available in some countries. Your Account Manager will provide more details.

In Australia, you can stay on top of the latest developments in environmental compliance with our Environment Resource Centre.
